Please, do not this situation continue. I believe an end should be put to this, and that the present settlement agreement be let stand with a guarantee that this settlement stand. Continuing to prolong action against Microsoft will not be in the public/consumers interest. This entire action has hurt our economy, industry and the American citizen. In my opinion, the continuation of this case over so many months was caused mainly by our pre-Bush government and politicians.

I think that when the public learns that Microsoft is no longer in litigation, the response of business and citizens will react with a positive response.

Thank you.....LillianEibert
